### EXPERIENCE

#### Digital Domain

Lighting Artist (Sept. 2019 – Present)

Vancouver, BC

- Currently working as a lighting artist, used Redshift and Vray renderers in Maya, worked up lighting for keyshots
- Responsible for sequence lightrig setup: created shot sequence lightrig, worked closely with lead and supervisors to establish look buyoff with keyshots, helped troubleshoot and adapt rig

#### Double Negative

Lighting Artist (Dec. 2018 – Aug. 2019)

Vancouver, BC

- Used Clarisse for shotwork which included: plate matching and integration, CG environment and character rendering as well as creative lighting for various characters

#### Method Studios

Lighting Artist (Nov. 2017 – Nov. 2018)

Vancouver, BC

- Utilized Maya and Houdini for shotwork which included: plate matching and integration, CG environment rendering and creative lighting
- Worked up creative notes and lightrigs for keyshots

#### MPC

Lighting Artist (Oct. 2015 – Nov. 2017)

Vancouver, BC

- Created lighting and rendering setups that were used by artists at the sequence level
- Worked up creative notes and lightrigs for keyshots
- Team responsibilities included providing internal notes, helping artists with troubleshooting, quality-checking dailies and communicating between artists, leads and production

### SOFTWARE & SKILLS
